# BHANDARKARS' ARTS AND SCIENCE COLLEGE LIBRARY

#### Library is automated using Integrated Library Management System (ILMS)

# KOHA

The fully atomized KOHA ILMS software is used in the library. This programme automates every step of the system charging and discharging procedure. It offers a range of choices for the team to include fresh material and new ideas. This programme is modifiable, so we may change it to suit our requirements. The new update can be uploaded to OPAC with ease as well.

The software's circulation module handles every aspect of circulation, including member record creation and the printing of reminders for overdue books. The single screen Issue, Return, and Renewal with all member details, membership records with photos, and statistical reports on membership are the module's standout features.

#### **Details about KOHA**

#### Koha Staff user interface
