

The Accessibility of Online Resources

These days, e-resources are a crucial component of library services. Today, a large number of crucial academic resources are offered in digital formats. Particularly, scholarly information like books, conference volumes, and journals is now mostly only available in electronic versions. It is now necessary for libraries to offer access to electronic resources in this situation. UGC INFLIBNET offers a significant selection of electronic journals and books through consortiums. As members of the N-LIST e-resources consortium, we now have access to the e-resources made available by the N-LIST initiative. The number of e-books and e-journals that can be accessed through the N-LIST e-resource package is listed below.
